### Description

Case of Whip-It! 9x Refined Butane - 12 Bottles.

Each bottle is 300ML.

Whip-It! 5x refined butane is purified 5 times through several chambers of active carbon towers to refine the butane from all impurities and odor. It is then further purified through a molecular sieve to get it as close to zero impurities as possible.

Whip-It! boasts a an optimum composition ratio of N-butane and ISO-butane molecules to allow maximum internal compression, high combustion quality, and the cleanest burn possible.

All Whip-It! butane goes through a diligent inspection processes that follow the ISO 9001, TUV, and EN-417 quality control measures.

United Brands, who manufacturers all Whip-It! products, has over 6 decades of gas manufacturing expertise making their move into the butane industry a natural fit.
