Description

ATTENTION: Whip-It! is currently running a Buy One Get One promotion on their Whip-It! Premium butane. They've printed this BOGO promo directly on their bottles and boxes. Our site would become of mess if we tried to halve all our quantity offerings or if we forced you to buy 2 items of any given Whip-It! Premium quantity. So instead we've factored in the discounted price into our normal quantities. Keep in mind we already price things near wholesale and even though Whip-It! is calling it a BOGO, it is not a 50% reduction in price for distributors. We do hope you enjoy the discount though and take advantage of this sale.

Master Case of Whip-It! Premium Refined Butane - 72 Bottles.

Each bottle is 420ML.

Whip-It!'s top end ultra refined butane comes from the North Sea and is manufactured and refined in the United Kingdom. These bottles also top out at 420ml each giving you a staggering 40% more per can than the average 300ML bottle.

Whip-It! boasts a an optimum composition ratio of N-butane and ISO-butane molecules to allow maximum internal compression, high combustion quality, and the cleanest burn possible.

All Whip-It! butane goes through a diligent inspection processes that follow the ISO 9001, TUV, and EN-417 quality control measures.

United Brands, who manufacturers all Whip-It! products, has over 6 decades of gas manufacturing expertise making their move into the butane industry a natural fit.
